

Workplace Vaccination of COVID-19 to be conducted by OUAVM

OUAVM is currently scheduling to offer Covid-19 vaccinations for students and faculty staff of OUAVM who wish to be vaccinated.

This vaccination is not compulsory, and all members of the university are reminded not to discriminate against anyone who is not vaccinated.

To those who wish to receive the vaccine, please read the FAQ and be sure you understand the Vaccine Explanation before proceeding to make a reservation.

In addition, we are not sure the amount of vaccine we are receiving from the government at this point. Please note that the vaccination schedule might change according to the situation of vaccine supply, and we will announce you about the schedule change if there is any.

1. Persons eligible to be vaccinated

- i) Students of OUAVM (including research students and non-degree students)
- ii) Faculty Staffs and board members of OUAVM (including part-time staffs)
*For international students and foreign researchers, family members (aged 18 and over) living in the same household will be eligible as well.

2. Period (scheduled)

- i) **First dose : August 28th(Sat.) ~ September 1st(Wed.)**
9am~5pm (except 12 noon ~ 1pm)
- ii) **Second dose : September 25th(sat.)~September 29th(Wed.)**
9am~5pm (except 12 noon ~ 1pm)

* You will need 2 doses of the vaccine. You should get your 2nd dose 4 weeks after your 1st dose. Please note that those who cannot receive 2 doses of the vaccine during the schedule above are not eligible.

3. Vaccination site

Auditorium, Obihiro University of Agriculture and Veterinary Medicine

4. Types of vaccination

Moderna TX, Inc. "mRNA-1273"

How it will be given; Shot(0.5ml/shot) in the muscle of the upper arm

5. Application period and how to apply

【Application period】

July 21(Wed)~ July 29(Thu) by 17:00

【How to apply】

Please make a reservation from the website below.

<https://forms.gle/cMiD15jrjAy4cSyk9>

- ※ Please select all possible dates and times. We are planning to send a notification that shows the date and time of vaccination to your resisted email address around August 10th (Tue), but please note the notification date may change.
- ※If the desired vaccination date and time exceeds the capacity, you may not be able to receive vaccination. Please select your possible dates and times as much as possible.

6. What to bring when being vaccinated

(1)Prevaccination Screening Questionnaire

- ※ Please print it on one side of an A4 sheet of paper, fill in the necessary details in Japanese form, and bring it with you when being vaccinated.

(2)Identify document

International Students: Student ID card

Family member of International Students and foreign researcher: Residence card

(3)Vaccination Coupon

If you have received a vaccination coupon for COVID-19 from your local authority.

7. Important Reminders

(1)As you will have the injection to your shoulder muscle, please wear a T-shirt or other clothes that you can show your shoulder easily.

(2)You can receive a vaccine even if you have not received a vaccination coupon from your local authority, but please be sure to submit it to the following office once you received it. If you have already received it, please ensure to bring it at the time of your first and second doses.

【International Students and their family】: International Student Office

【Foreign Researchers】:International and Regional Collaboration Section

(3)If you have already made a reservation for the vaccination at your local authority, you can receive the vaccine there. Please do not make a double booking.

(4) Please check the “COVID-19 VACCINE FAQ(OUAVM)” about the Novel Coronavirus Vaccine.

(5) On the day of vaccination, there will be no time for a consultation regarding vaccination with a doctor. If you have a concern about receiving vaccination, please check COVID-19 VACCINE FAQ(OUAVM) first, and consult with your doctor or the Health care administration center in OUAVM well in advance.
