

• The OUAVM Business Continuity Plan during the COVID-19 pandemic will be revised as follows on August 16.
 • Changes are shown in red font and in red boxes.

- Levels are set based on the potential risks involved.
- Allowed activities are determined in reference to the criteria for each level, and details will be provided separately.
- Members of the OUAVM community are asked to continue practicing basic infection control measures, including avoidance of the three Cs (closed spaces, crowded places and close-contact settings), physical distancing, mask wearing and frequent hand washing.
- Primarily the faculty should urge their students to exercise caution.
- Any OUAVM student, faculty or staff member who becomes subject to testing as a close contact or a suspected case must isolate themselves at home—even if they test negative—for two weeks from the day following the day on which they came in contact with a person confirmed to be infected with the virus. They must also monitor their health during this period.

Students

		Level 1	Level 2	Level 3	Level 4	Level 5	
		Normal times	Restrictions: low level	Restrictions: medium level	Restrictions: high level	Prohibition of activities
