New Science Books in ERC

ERC got >50 new books in the spring of 2021! When ERC is open someday, come borrow and read these books. Third-year students and older, you must miss the days you had to read ERC books right before deadlines. First- and second-year students, which one would be your first ERC book?

YOUR FUTURE FRIENDS:

If you are feeling lonely without your family or friends in your hometown, just think about living with pets. These

December/2021

books tell you what your favorite breed is.

KNOW YOUR FOOD:

Did you know you can read biographies of familiar food? Learn about rice, potatoes, tomatoes, bananas, coffee, tea, chocolate...

Haven't you ever dreamed of life of babies of zoo animals? You know it's impossible to keep them in your house, but what if you can see them in the ERC? Come learn about them in different habitats!

SERIOUS PROBLEMS:

There are serious problems we should learn about as humans. From these books, you can learn how each animals live and what endanger them.

THE CHAIN OF LIFE:

If you were a prey, what carnivore would you want to eat you? Or what if you were a carnivore? What makes you hungry? You can learn about food chains in various environments like rain forest, wetland, meadow and stuff.

FOR HORSE LOVERS:

These books tell you about competitions using horses, how to care for them and other things you want to know.

There are also books on other science topics you must be interested in.

None of these new books have online quiz, so you can read them just because you want to.

We hope the day we can see your face and say hello in the ERC will come soon.
